## Amelia Earhart Memorial Bridge

The new Amelia Earhart Memorial Bridge, a four-lane, tied arch structure will stretch nearly 2,500 feet, distinguished by its double steel arches on the main river span and special aesthetic lighting. It will replace the existing two-lane structure, which was completed in 1938 and is too narrow to handle some of today's larger truck loads and farm implements. The extra lanes also will accommodate the greater numbers of vehicles that now pass over the bridge daily.

The bridge replacement is a cooperative project funded by the Kansas Department of Transportation and the Missouri Department of Transportation. Of the \$59.4 million construction cost, Kansas will contribute \$30.6 million and MoDOT will contribute \$28.8 million.

### Watch Construction Cameras

Atchison, KS - The Kansas Department of Transportation, in partnership with MoDOT, launched a web cam on Oct. 30, 2009, that will feature images of the new Amelia Earhart Memorial Bridge construction in Atchison. Camera image will refresh every 15 minutes and viewers will be able to view the time lapsed images in sequential order for an extended period of time.
